GET READY FOR
CJADC2

Linchpin Solutions knows being involved in CJADC2 means being at the forefront of integrating and synchronizing operations across many types of users and domains. That is why we are passionate about sharing our deep understanding of the complexities and technologies behind Tactical Data Links (TDLs) in the CJADC2 framework.

Our expertise and approach allow us to contribute vendor agnostic and flexible training services to ensure tactical users can confidently face new technologies and mission sets, while our help-desk services allow real-time troubleshooting and problem identification to efficiently resolve issues and user questions. Whether used together or individually, these services enhance users overall operational effectiveness and success.

PRACTICAL TACTICAL DATA LINK TRAINING SERVICES

Linchpin Solutions knows that every customer has unique needs when it comes to training.

That is why we believe in providing tailored training solutions that are relevant, convenient, and designed to meet the unique needs of each one of our customers.

With extensive Tactical Data Link (TDL) experience, our staff is uniquely postured to provide personalized TDL training for a wide variety of TDL users. Our knowledge and experience spans across each of the military service branches, and includes both traditional TDL users and non-traditional TDL users. We know our customer's time is valuable and limited, which is why we offer training solutions on a not to interfere basis, and on a timeline and at a location that works with our customer's schedule.

Whether you are seeking entry level TDL foundation knowledge, advanced TDL planning and operations information, or executive level overviews, Linchpin Solutions has the training solution.
